STAT

Dear 

STAT

I am writing to thank you for your thoughtful letter to Chairman Mazzoli concerning H.R. 5164. Current plans are for the Subcommittee to mark-up the bill and report it to the full Government Operations Committee in time for action by the Committee and subsequent House passage this session. Thus I am still guardedly optimistic.

Unfortunately, Representative English and Department of Justice people are not actively discussing any possibility for compromise on the Privacy Act (b)(3) exemption issue. I do hope, therefore, that your suggested compromise will catch someone's attention.

Your excellent testimony in February and your continuing support for this legislation is greatly appreciated.

Sincerely,

STAT

Deputy Director, Office of Legislative Liaison
